Inductive, Capacitive,
Photoelectric, Ultrasonic,
Safety & Limit Switch
integration devices.

Leading Technology For Industrial Sensor Integration

www.softnoze.com

Look to SoftNoze for a dependable and innovative source for the devices you need to integrate your sensors and switches.

While control manufacturers excel at providing the sensing technology you need, SoftNoze™ excels at providing mounting brackets and accessories that will maximize the sensors's capabilities. Off-load the integration details to SoftNoze, so you can focus on bigger tasks.

From simple mounts like our RiteAngle™ Bracket, to patented solutions like our spring-loaded Cushioned Sensor Mounts, SoftNoze™ will keep your systems up and running.

What You Need, When You Need It

At SoftNoze, we recognize how important sensor applications are to automation projects and production schedules. That's why we spend all our time and resources making sure you get what you need:

- Superior Customer Service
- Rigid Quality Inspection
- Broad Product Offering
- Large Inventory of Stock Items
- Specialty and Customized Products
- Fast and Accurate Delivery

Standard SoftNoze Solutions

We have the broadest line of mounts and accessories in the industry, designed and developed with the help of control users like you. SoftNoze-designed accessories go the extra mile to:

- Provide Easy Installation & Maintenance
- Decrease Control Wear & Tear / Increased Reliability
- Help Reduce or Eliminate Downtime

Custom Solutions - SoftNoze "CPR"

Can't find what you need? No problem, SoftNoze has a wealth of engineering and manufacturing experience to assist you when your application calls for something new or if modifications are required:

- Streamlined Process that Keeps You Informed
- Solution Generation & Proposals
- Estimates & Formal Quotations
- Prototype Development & Delivery
- Production Manufacturing
- Private Labeling
- Stocking Programs
- On-time Deliveries
